To Whom It May Concern:

I am writing today to ask in the strongest way possible that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. If you do not reverse course I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections. I strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that I oppose because some of these can cause an abortion (such as ella and Plan B).

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds. The definition of "religious employer" in the regulation is so narrow as to only include churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either violating their conscience or not being able to offer employees health insurance.

Please protect the conscience rights of insurers, providers and people like me who object to being forced by the federal government to offer or subsidize contraceptives and sterilization services, especially when some of these drugs can take the life of early unborn children. No Americans should be forced by the federal government to essentially subsidize services they object to. I again urge you in the strongest way possible to reverse course and remove contraceptives and sterilizations from the list of mandatory preventive services.

Intelligent, informed and educated people, with all of the latest developments in medicine and science KNOW that life begins at conception. It is now beyond possible for anyone of even average knowledge to believe otherwise. Decent, moral people also KNOW that it is wrong to intentionally end the life of a fellow human being, post or preborn. You to know that, do you not?

May God have the mercy on you that you deny to others, especially those too small or too young to defend themselves. And, may our Lord help and guide you to once again awaken to the plight of your fellow human beings and begin again to stand for morality, decency and the "right to life" for EVERYONE.

Sincerely,  
Tom Morofski  
Oceanside, CA 92057
